

PRODUCT LINES

Transmission

Brugg Cables, LLC

- ✎ Fiber optic cables (OPGW, ADSS)

Classic Connectors, Inc.

- ✎ "ClampStar" connectors— live-line splice repair splices

Earth Contact Products

- ✎ Utility grade anchors, Smart anchoring monitors

Electromark

- ✎ Tower and cable marking, warning signs

G&W Electric

- ✎ High-voltage cable terminations

Hughes Brothers

- ✎ Transmission line materials

Laminated Wood Systems

- ✎ Laminated poles/structures, PhaseRaiser® system, Pole Enforcer® products

Preformed Line Products (PLP)

- ✎ Conductor hardware (Standard and THERMOLIGN High Temp Hardware), Vibration Dampers, FIBERLIGN - Fiber Optic Hardware & Closures

Rapid Rail International

- ✎ Permanent & temporary Anti-Fall Systems

Sediver

- ✎ Innovative toughened glass insulators with mechanical ratings up to 170,000 lbs for AC and DC applications

Southwire

- ✎ High-voltage XLPE cables, overhead conductor

Automation/Integration/Protection/

Communications

Bitronics

- ✎ Substation measurement products

Iniven

- ✎ Teleprotection products for relay communications

Novatech, LLC

- ✎ Orion substation automation platform, distributed I/O, WEBserver HMI

Sensei Solutions

- ✎ Technology solutions and data management for critical asset monitoring and condition-based maintenance

Schneider Electric (Formerly Aрева T&D Canada)

- ✎ Protective relays

TransData

- ✎ Revenue meters, transducers, isolation relays

Product Lines Represented in Maine Utility

MEDIUM AND HIGH VOLTAGE SPECIALISTS

We supply all the equipment to get electric power from transmission to the end user.

Distribution

Earth Contact Products

- ✎ Utility grade anchors and solar panel foundation systems

Electromark

- ✎ Labeling products, tags, warning signs

Federal Pacific

- ✎ Padmounted switchgear, metal-enclosed switchgear

FRE Composites

- ✎ Fiberglass conduit systems, above and below ground

G&W Electric

- ✎ Gas and solid-dielectric switchgear, reclosers, automation packages

Howard Industries

- ✎ Distribution transformers, voltage regulators

Hughes Brothers

- ✎ Distribution line materials

Kunz Glove Co., Inc.

- ✎ Leather protectors and work gloves

Laminated Wood Systems

- ✎ Unguyed angle structures, Pole Enforcer® products

Nordic Fiberglass

- ✎ Fiberglass box pads for transformers and switches, sectionalizing cabinets and pedestals

Preformed Line Products (PLP)

- ✎ Conductor Hardware, Cable Anchoring, FIBERLIGN—Fiber Optic Hardware & Closures

Power Line Hardware

- ✎ Distribution cutouts

Seves/PPC

- ✎ Distribution porcelain insulators

Southwire

- ✎ Medium-voltage XLPE & EPR cables, bare overhead, service cable, copper cable, cable-in conduit

Utilco

- ✎ Mechanical and compression connectors for over-head & underground distribution applications

Substation

Associated Substation Engineering (ASE)

- ✎ Packaged substations

Betafence USA

- ✎ Innovative substation fence and barrier systems— "Guardian Fence System", anti-ram barriers and ballistic protection

Castle Power Solutions

- ✎ Capacitor banks, filter banks, reactor packages - Metal-enclosed and overhead

Howard Industries

- ✎ Power transformers to 60 MVA 230 kV, voltage regulators

Sefcor

- ✎ Connectors and fittings

Seves/PPC

- ✎ Station post insulators

Southern States, LLC

- ✎ Disconnect switches, line/load & circuit switcher, capacitor switching devices, reactor switching

Southwire

- ✎ Shielded & unshielded control cable, instrumentation cable, copper grounding cable.

UniTech Power Technologies

- ✎ Smart Interlocking Systems for Substation Equipment

PRODUCT LINES

High Voltage Construction 46kV—345kV **Associated Substation Engineering (ASE)**

- ✓ Packaged substations
- ✓ Substation bus, connectors & electrical components

Castle Power Solutions

- ✓ Capacitor banks, filter banks, reactor packages-metal-enclosed and overhead

Earth Contact Products

- ✓ Utility grade anchors, "SAM" Smart Anchoring Monitor and solar panel foundation systems

Electromark

- ✓ Labeling products- tower marking / cable ID
- ✓ Customized signs- aluminum, polycarbonate, and porcelain for rail and substations

G&W Electric

- ✓ High-voltage cable terminations

Howard Industries

- ✓ Power transformers and unit substation transformer through 60MVA

Hughes Brothers

- ✓ Transmission line hardware

Laminated Wood Systems

- ✓ Mono-Pole and H-Frame structures
- ✓ Telecomm and "Joint Use" poles / structures

Preformed Line Products (PLP)

- ✓ Conductor hardware (Standard and THERMOLIGN High Temp Hardware), Vibration Dampers, FIBERLIGN – Fiber Optic Hardware & Closures

Sefcor

- ✓ Connectors and fittings

Sediver

- ✓ Innovative toughened glass insulators with mechanical ratings up to 170,000 lbs for AC and DC applications

Southern States, LLC

- ✓ Disconnect switches
- ✓ Circuit switches, line/load switchers, and capacitor switching devices, reactor switching

UniTech Power Technologies

- ✓ Smart Interlocking Systems for Electrical Equipment

Product Lines Represented in Maine Contractor & Industrial

MEDIUM AND HIGH VOLTAGE SPECIALISTS

We supply all the equipment to get electric power from transmission to the end user.

Medium Voltage Construction 480V—35kV

Castle Power Solutions

- ✓ Capacitor banks, filter banks, reactor packages—metal-enclosed and overhead

DPW Solar

- ✓ Solar mounting solutions—ballasted & traditional roof mounts, ground mounted PV systems

Earth Contact Products

- ✓ Utility grade anchors, Smart Anchor Monitors and solar panel foundation systems

Electromark

- ✓ Customized labeling products for cables, transformers and switchgear, customized signs

Federal Pacific

- ✓ Air insulated switchgear—padmount or wall mount in mild or stainless steel, UL Listed
- ✓ Medium voltage dry-type transformers

FRE Composites

- ✓ Fiberglass conduit systems, above and below ground

G&W Canada (formerly Canada Power Products)

- ✓ Gas switchgear—specializing in automation packages for industrial and wind power applications

G&W Electric

- ✓ Gas and solid dielectric switchgear—manual and automated
- ✓ Solid dielectric reclosers with SEL controls

Howard Industries

- ✓ Distribution oil / FR3 filled transformers—polemounts, 1-phase padmounts, 3-phase Padmounts. All American made / UL Listed
- ✓ Voltage regulators—station or distribution type

Nordic Fiberglass

- ✓ Fiberglass box pads for transformers and switches, sectionalizing cabinets and pedestals

Preformed Line Products (PLP)

- ✓ Conductor Hardware, Solar Mounting Hardware, FIBERLIGN – Fiber Optic Hardware & Closures

Seves/PPC

- ✓ Porcelain distribution insulators

Automation

Bitronics

- ✓ Substation measurement products with SCADA communications

Brugg Cables, LLC

- ✓ Fiber optic cables (OPGW, ADSS)
- ✓ Specialty fiber optic cables

G&W Electric

- ✓ LAZER Automation Platform-FDIR, Master Station Solutions and Voltage Loss Reconfiguration

Novatech, LLC

- ✓ Orion substation automation platform, distributed I/O, WEBserver HMI

Schneider Electric Canada (Formerly Areva T&D Canada)

- ✓ Protective relays for transformer, bus, and generator protection
- ✓ PACiS automation systems

TransData

- ✓ Revenue meters- "utility approved"
- ✓ Transducers and isolation relays

PRODUCT LINES

We are proud to represent the following companies in the Renewables Market:

ASE – packaged substations

Brugg – Fiber Optic Cables (OPGW / ADSS)

Earth Contact Products – Utility Grade Anchors, “SAM” Smart Anchoring Monitor

Electromark – Tower and Cable Marking, Warning Signs

Federal Pacific – Air insulated switchgear—manual or automated. Medium voltage dry-type transformers

Hughes Brothers – Transmission Line Materials

Laminated Wood Systems – Laminated Poles / Structures, Switch Structures

Nordic Fiberglass - Fiberglass box pads for transformers and switches, sectionalizing cabinets and pedestals.

Preformed Line Products - Conductor hardware (Standard and THERMOLIGN High Temp Hardware), Vibration Dampers, FIBERLIGN – Fiber Optic Hardware & Closures

Rapid Rail International – Permanent & Temporary Anti-Fall Systems

Sefcor – Substation connectors and fittings.

Seves – Toughened Glass Suspension Insulators, Station Post insulators, Distribution Insulators

Southern States LLC – Disconnect Switches, Line / Load & Circuit Switcher, Capacitor

Product Lines Represented in Maine Renewables

MEDIUM AND HIGH VOLTAGE SPECIALISTS
We supply all the equipment to get electric power from transmission to the end user.

Headquartered in Bolingbrook, IL offers the following products for the Renewable Market:

- Wind tower load and fault interrupting renewable energy switches designed to fit within the access door of the tower.
- Padmount load and fault interrupting switchgear designed and approved for interconnection with the utility grid
- Reclosers designed to provide overcurrent protection at the interconnection with the utility grid permitting an economical alternative to circuit breakers.
- Current limiting protectors designed to protect both the utility grid from excessive wind farm fault contributions and the wind farm from any massive utility grid fault currents.

What separates G&W from its competitors is the ability to customize their products. It is not a “one size fits all approach”. G&W will tailor their products to fit and meet or exceed your application.

Howard Industries, Inc.

All manufacturing is based in Mississippi with plants in the cities of Laurel, Ellisville and Sandersville. Howard offers the following products for the Renewable Market:

- Medium Power Transformers – up to 60 MVA / 230kV
- Voltage Regulators – Distribution and Substation Class
- 3 Phase Step-Up Transformers
- Single Phase Substation Service Transformers

Not all lines represented in all territories.

Southwire®
WE DELIVER POWER...RESPONSIBLY

Southwire offers a full line of low, medium and high-voltage cable products that move power from the generation source to collector systems or into the local grid. With manufacturing centers in Carrolton, GA, Villa Rica, GA, Hawesville, KY and Flora, IL as well as regional distribution centers, Southwire offers the following products for the renewable market:

- Medium Voltage (15kV -35kV) XLPE and EPR cables.
- Overhead Bare Conductors (ASCR, AAC, AAAC and ACSS)
- 600V URD Products
- Substation Control Cables.
- 115kV & 230kV XLPE Power Cables

DPW

Solar is

a wholly owned subsidiary of Preformed Line Products (PLP). We are a major manufacturer of PV Solar mounting solutions since 1993. Professional installers from coast to coast rely on our POWER-FAB® product line of superior strength and easy to install mounting systems and enclosures.

- Ballasted and Traditional Roof Mounts
- Ground Mounted PV Systems to fit all size requirements
